# WHY LEARN THIS?

1. Reasons
2. Git & GitHub -- Things you should know earlier  
<https://codeburst.io/why-you-should-start-using-github-right-now-e817d213c6ff>

## STEP 1: Create repo

- Register a Github account
- Create a repo
- Tick the box of creating a README.md

## STEP 2: Add files

- You may add code, text or other file format
- Add some details about this repo (picture/link etc.)
- Add new file (any file)
- Edit your **README.md**
- Describe what this repo is about
  - **why?**
  - **code usage**
  - **software/hardware description**
- Choose a license(optional)

### STEP 3: Delete

- Delete items and leave a reason

### STEP 4: Edit

- Edit items and leave a reason

## Future Topics

- github desktop

## Future Plan

- Promote github
